Dear Innokentii Keleinikov,

on behalf of the German Book Art Foundation (Stiftung Buchkunst) I hereby cordially invite the Russian national competition «Zhar-Kniga» to participate in our annual competition "Best Book Design from all over the World".

Unique of its kind in the world, the traditional book design competition has been held in Leipzig since 1963. Since 1991 the Stiftung Buchkunst in Frankfurt am Main and Leipzig has been responsible for overseeing it. The international competition assesses books which have previously been judged and singled out for merit by specialist panels in their respective countries of origin.

An independent international jury convenes every year in February in Leipzig with the task of selecting fourteen outstandingly designed books from about 600 of the best books from more than 30 countries: the best of the best.

The award ceremony and reception takes place at the Leipzig Book Fair in March at the official booth of the Stiftung Buchkunst.

All participating books will be shown at the exhibitions "Best Book Design from all over the World" at the Leipzig Book Fair, and "Bookart International" at the Frankfurt Book Fair.

We would really appreciate continuing the longtime cooperation with Russia.

Kind regards,

Katharina Hesse
Executive Director
